APPLICATION SERVICE

CONICA

SiteForce

DELIVER LARGE AND DEMANDING PROJECTS WITH CONFIDENCE.

Supports installation companies even under schedule, quality and reputation pressure. It helps overcome capacity and staffing bottlenecks and enables reliable and responsible project execution from a single source.

Vasil Levski National Stadium
Sofia, Bulgaria

TAKE ON ADDITIONAL PROJECTS WITHOUT EXPANDING YOUR OWN TEAMS

ESPECIALLY RELEVANT WHEN...

- ...there are more projects than your own crews can cover.
- ...large areas need to be completed within a tight installation window.
- ...the site is technically or organisationally demanding.
- ...additional schedule and quality assurance is required.
- ...work takes place during ongoing operations, with events, access restrictions or interrupted time windows.
- ...specialist equipment required for the project is not available.

WHAT IS SITEFORCE?

CONICA SiteForce is a temporary, project-based installation and consulting service for installation companies. CONICA provides additional installation capacity, including teams, equipment and technical support, enabling sports flooring projects to be completed reliably and to a high standard even within tight time windows.

THE BENEFITS FOR INSTALLATION COMPANIES

BENEFIT	VALUE FOR INSTALLERS
CAPACITY WITHOUT ADDITIONAL FIXED COSTS	Take on additional projects without expanding your own teams. Services can be subcontracted to CONICA while the installer remains the contracting party.
TIGHT TIME WINDOWS	CONICA completes demanding surface installations on schedule, even within tight time windows.
SPECIALIST EXPERIENCE	Experienced and well-coordinated teams increase installation reliability on site.
RISK REDUCTION	Reduce risks related to schedules, weather, logistics and parallel events through daily on-site coordination.
SUITABLE EQUIPMENT	Suitable equipment and well-coordinated teams on site help maintain productivity and meet deadlines when missing equipment would otherwise become a bottleneck.
ONE CONTACT FOR CLAIMS	Instead of first clarifying responsibilities, we act immediately: CONICA takes care of material and installation from a single source, without waiting for cost allocation to be resolved.
NEW MARKET ACCESS	Installers can grow beyond their current team size. With CONICA support, they can access regions that were previously out of reach.

SiteForce does not replace the local installation partner. It strengthens them. Backed by our PUR application expertise, the installer demonstrates the expertise required for high-quality, on-time execution.

- The installer remains the contracting party and retains the customer relationship
- CONICA takes responsibility for the agreed scope and its execution
- The installer also benefits financially by subcontracting part of the work
